

FOR IMMEDIATE RELEASE : 7/3/2018

## **Iyoda released Dual Match 3 on the Google Play Store and App Store.**

**Dual Match 3 is a simple match 3 puzzle game with a deep complex edge.**

Iyoda is an indie game developer from Japan. His previous game Dungeon Tiles was chosen as Apple TV Games Best of 2016 (Japan) and won first prize in AppLovin's Apple TV App Challenge.

Iyoda developed Dual Match 3 with the intention of keeping the rules simple, so that light users with less gaming experience could also enjoy the game, while also incorporating a deeper, more complex edge.

Dual Match 3 is a match 3 puzzle game with simple rules. All players have to do is connect 3 or more balls of the same color and number. However, the balls can also be connected diagonally, which opens up more connection paths.

Since scores vary greatly depending on the connection path, players get much better scores as they improve, allowing them to continue playing without getting bored.

### **Features:**

#### **1. Three play modes**

##### **Normal Mode:**

When you connect 3 or more balls of the same color, the total number of points on the balls is added to your score. Connecting 3 or more balls of the same color and number scores a combo, and the points on the balls are multiplied by 10. The points are also multiplied by the number of combos. The level is complete when all colortargets are cleared within the given number of moves.

##### **Hard Mode:**

The basic rules are the same as Normal Mode, but when you connect 3 or more balls of the same color, a cube containing the total number of points appears, then the cubes can be removed by connecting 3 or more cubes of the same color. The cubes act as obstacles, making the game more difficult, but you can also score highly by removing the cubes.

##### **Time Mode:**

You have to get the high score within 60 seconds. When you hit the score target in 60 seconds, the level finishes and the time limit is reset to 60 seconds. Get combos to extend the time limit based on the number of combos you make. 1 combo adds 1 second, 2 combos add 3 seconds, 3 combos add 10 seconds, 4 combos add 30 seconds, and 5 combos add 60 seconds. However, the time limit never exceeds 60 seconds.

#### **2. Three items**

You can exchange the coins that you receive at the end of the game for the following items:

Tap a ball to remove it

Add two moves

Display a hint (reveals a high-scoring path)

#### **3. You can upload a shot of your highest-scoring move (Best Move)**

#### **4. Colorblind Mode**

#### **5. Three themes (White, Dark blue, Gray)**

#### **6. In-app purchases**

Remove ads and Double the amount of coins earned in the game

#### **7. Available in 12 languages**

English, Spanish, French, German, Italian, Portuguese, Russian, Simplified Chinese, Traditional Chinese, Japanese, Korean, Arabic

Dual Match 3 is free to play. Dual Match 3 is available worldwide from Google Play Store(Android 4.4 or later) and Apple's App Store(iOS9 or later). Dual Match 3 is optimized for iPhone X.
